irons, etc.

It is a man's government which has electric and everything else, issued an order cutting down on the cost of electric current in Canada, while it holds.

Russia's government needs power for industry. Here, to the laborers, we produce enough and too much for both. People are better off, when better, is better, on the whole.

One man who thought earnestly and fell deeply, as he sat in the small room of the funeral ceremonies for the former President Coolidge, was the President of the United States, Franklin D. Roosevelt, who, in his short speech, described him thus:

"A man whose face was lined with weariness, whose eyes were

BREACH OVER REPEAL WILL HOLD-UP ACT

Speaker John Garner, Who Holds White Hand, Criticizes Plan

WASHINGTON, Jan. 10—A wide breach between United States senators and House members of the same party over a proposed prohibition resolution should take today threatened to kill off any chances of congressional approval of the measure.

Speaker John N. Tillman, who held the white hand, said yesterday he supported the Senate proposal.

He asserted it did not conform to the Democratic platform and the House members refused to support it.

The Senate chieflain's report was delivered yesterday at a joint session of the参議院 Committee and the House Committee.

After a year and a half, Stalin defended his policies which, he acknowledged, had brought the Soviet Union to the country, declaring his needlessness to incur future developments.

FACTS ARE REFUSED

Asserting that the failure to attain the objectives of the plan was due to the new parliamentary session opened today, a result of repeated suspension of rules was demanded by the speaker.

Senate Democrats, on the other hand, apparently have decided to accept the bill as it stands and to let it go through the judiciary committee and press for outright repeal as soon as possible.

Speaker John N. Tillman, who held the white hand, said most others also have indicated that if they were drafting it again, they would draft it as it stands.

PAUL-BONCOUR'S GOVT IN DANGER

PARIS, Jan. 10—Premier Joseph Paul Boncour's cabinet in peril as the new parliamentary session opened today, as a result of repeated suspension of rules was demanded by the speaker.

It was asserted that the budget minister Cheron had reported to the cabinet that the committee of the treasury had voted to accept the deficit, which has been accumulating since July 1, 1932, at \$165,541,000.

It was also asserted that the budget minister had voted to accept the deficit to offset a loss of \$3,026,000 francs in economies and \$433,000 francs in losses from the sale of foreign assets.

This was established when a magistrate sentenced James Jones Zee, 22, who admitted engaging in a robbery in which he wounded Harry Linder for being a fuel dealer.

The Linder was injured but not killed. His wife was not present.

The Socialist group in the chamber, 118 strong, planned to offer a counter project.

\$1,000,000 Worth Of Beads Produced In South Alberta

TABER, Alta., Jan. 10—For the first time in its history, Taber's wool district produced 100,000 pounds of mohair last year.

Several persons were taken to hospital in taber, including a woman who was severely injured when she was hit by a car.

A defective switch was blamed for the accident which took place at about 10 o'clock.

BLAST INJURES MANY

RAETHROW, Germany, Jan. 10—Several persons were taken to hospital in taber, including a woman who was severely injured when she was hit by a car.

Local snow blizzard.

In Irish Spotlight Again

Erugine after surprise has become the daily routine of news from the Irish Free State, where President de Valera (left) is always away. When a vigorous protest from Labor was threatened by his supporters, he called a general strike of civil servants, de Valera dissolved the Dail and called for a new election on January 24th, with the new congress to meet Feb. 8. Meanwhile the Labor members have patched up their quarrel

with de Valera, and his party is again strengthened. But former President Cosgrave (right) is losing no time in telling the effects of the fallings of the Flannan Fall (de Valera's government) and is working to win back the support of the right wing. Meanwhile, Daniel Breen, newly appointed governor, sits back and watches the fun, hoping probably for de Valera who gave him his present job.

LABOR WILL NOT JOIN UP WITH C.C.F.

Resolution Fails to Mention Group Headed by Woodsorth

EDMONTON, ALBERTA—Tuesday, Jan. 10, 1933

CALGARY, Jan. 10—Alberta Federation of Labor apparently will not affiliate with the Co-Operative Commonwealth Federation, according to the resolution passed by the meeting of the Labor Council. It had been expected the committee would place C.C.F. affiliation before the delegates, but the resolution did not mention the organization headed by S. Woodsorth, Labor M.P. for Winnipeg.

When the convention resumed this morning the ways and means committee presented a resolution

for the delegates' approval, which merely declared "with the end in view of increasing the affiliated membership of the Alberta Federation of Labor, your committee recommends that you consider the affiliation with the Co-Operative Labor field."

A number of delegates were op-

posed to any affiliation that would result in the Federation losing its independence, and one delegate objected to becoming too closely associated with Farmer organizations

referring to "United Farmers of Alberta affiliation with C.C.F."

Manitoba Comptroller-General Charged with Failure of Statutory Duty

Failure To Obtain Audit In Machray Case Laid Bare

Robert Drummond Accused of Futile, Inexcusable Act

WINNIPEG, Jan. 10.—Failure in statutory duty was charged against the Manitoba Comptroller-General, Robert Drummond, and members of the University of Manitoba Board of Governors yesterday by R. F. McWilliams, attorney for the committee of enquiry investigating \$1,000,000 loan in university endowments.

Robert Drummond, comptroller-general since 1921, was accused by counsel of a "futile and inexcusable act" in failing to obtain an audit in an annual audit of university investments for seven years, while John R. MacLennan, president, failed to actually make the audit. Mr. McWilliams said the committee had demonstrated its own unfitness from a press conference on the suit's findings.

GOVERNORS BLAMED TOOK

The Board of Governors were blamed by counsel for "failing to make a reasonable effort to have investments and must be held responsible for the result."

He contended that the audit was supposed to have been taken between the Land Board and the Board of Governors, and that the audit and disposal of bonds. There were no audit instances of both boards.

Legality of conduct of John A. MacLennan, both former chairman of the board of governors and

Captain Neville Lawrence, son of Sir Walter R. Lawrence, has been announced. Sir is vice-chairman of the York University community state and has been actively engaged in politics since graduation from Harvard College.

He is former officer of the Coldstream Guards and at London banking house.

Drummond admitted there had been no audit for seven years, nor had there been a report to the board of governors. He was described as a "clear breach of the university statutes relating to the committee."

CLAIM RESPONSIBILITY

In view of this, counsel said, should not the comptroller-general be held responsible general as far as he is able to do?

Members of the commission ruled as counsel recalled the \$2,000,000 deficit in the fund of Machray and MacLennan's financial investments, but Mr. McWilliams told of a suit brought against MacLennan for that period which resulted in an award of \$1,000,000 to him.

The committee was not the only one whom he would suggest should be held financially responsible. He also mentioned the hearing of the hearing interrupted any further mention of names.

NEWSPAPER OR AVIARY

JEROME, Ind., Jan. 10.—Judging by the number of reporters, one would be led to believe that the Herald Times was an aviator, rather than a newspaper. When the paper observed its centennial recently it was revealed that two of its editors were Peacock, two of that of Parrot, one of Pigeon, and so the birds Woodpecker, who was the hungry son of Sir William Screech, and Ambassador to Brazil, is also on the staff.

GENERAL MOTORS SALES

NEW YORK, Jan. 10.—General Motors Corp. Monday reported its sales of cars to consumers in the United States during December, 1932, at 12,736 in November and 83,368 in December, 1931.

NONE AGAINST FIVE YEAR PLAN

CONFIRMED FROM GOVERNMENT

indications in the far east." Stalin said: "We were compelled then to change the work in our factories in order to meet our needs of defense."

"We have filled all the gaps now in this respect and have completed everything for the defense of our country, but this had an effect on us, too, because of the five-year plan," he continued. "With such circumstances we decided to stop the war even if we had to wait."

Concerning the dropping of industrial output in uncoordinated countries, he declared the volume of industrial production in the U.S.S.R. had increased from 1928 to 1932, pre-war level had had doubled since 1932.

BY WITHOUT BREATH

"It may have been better to produce more things for broad consumption, but we did not know what we had produced less than was needed resulting in well known difficulties. We had to take the consequences of postponing our heavy industry construction in favor of making more simple elements and other articles of consumption."

"We had to buy raw materials for these simple items we would have had no tractors, no machine tools, etc. We would be without bread."

"As it is, we have lifted the consciousness of the people from the position as the object of the military designs of our enemies, and as Chairman of the Comptroller-General I am shown to have been right in insisting on such speed in heavy industry construction. That is why the party was compelled to lead the country in order not to lose the war, and that is why S. R. We had no possibility of winning."

Deciding a sharp reduction in the present pace of industrial activity for the second five-year plan, Stalin said: "The first five-year plan increase in grass production of 25 per cent during the first five-year plan must be cut down to 13 or 14 per cent."

Daughter Of Savant To Wed Briton

The engagement of Miss Sarah Butler (pictured here), daughter of Nevil Murray, Captain of Columbia University, and Captain Neville Lawrence, son of Sir Walter R. Lawrence, has been announced.

Both are members of the University community state and have been actively engaged in politics since graduation from Harvard College.

He is former officer of the Coldstream Guards and at London banking house.

Communists and Police Hold Battle

FURTHER PLANS FOR ADVISORY RELIEF GROUP

Matter Referred to By-laws Committee for Further Inquiry

Ald. C. L. Gibbs proposed that an advisory relief committee be appointed to assist city commissioners and the relief department in their work at the next city council meeting when it was referred to the civic bylaws committee for further consideration. The committee will suggest the scope of duties and the personnel of the proposed body.

Opposition to the proposal, Ald. Gibbs said he felt there was need of such an advisory committee which would be in agreement with suggestions which tend to improve the relief system in Edmonton.

The relief department, he said, was already doing its best with routine work. Commissioners also had much other business to attend to.

QUESTION MISMANAGED

"The relief question has been horribly mismanaged. There are 800,000 people here and Edmonton has given no constructive ideas for the improvement of the relief system," he said.

In supporting the motion, Ald. W. Franklin suggested that one woman be appointed to the bylaws committee.

Ashley, Mayor Kress, if he was asked, a committee to assume full responsibility for the administration of relief, said. Ald. J. S. Saenger and Reginald Ald. Gibbs replied that he did not. It could set in motion a chain of commissioners, relief department and city council, he stated.

Ald. Joe Jackson felt that a committee of this nature could save considerable time in the discussions.

It would be a busy committee, he said, and he hoped that he believed that members of such a body should receive some remuneration.

Ald. H. D. Ainsley then moved that this question be referred to the bylaws committee and motion receiving the support of council.

Sylvia Chosen

To Sylvia Sidney goes the title role in Theodore Dreiser's "Jennie Gerhardt," soon to go into production in Hollywood. Refreshingly, you may recall, scored a tremendous hit in the first screen version of a Dreiser story, "An American Tragedy."

AMUSEMENTS

BALTO

It's a circus and figuratively Mack Sennett's long-looked-for super-feature comedy, "Hypnotized," is a

The first half of this big World War attraction which will be seen at the Rialto, the Strand, the Empress, the "Dickens" London, McBride's, the famous humorist, in a "Wide Open Faces," and the latest Mervin's News comedies the program.

Just imagine Moran and Mack as roustabouts to the elephants.

Pictorially, the wedding was the big top with the two stars performers about to be married during a bit of funnier than the horizon. It will continue today and until Mack Sennett has a circus, it's

For a change, young Sennett then takes his comedy act and he's got a "milyum" of them, and a seagoing ocean liner . . . and more things happen. One of them

being a wild lion breaking up the ship's concert.

An Andy Clyde comedy, "Rained Some," is a troupe of actors, London, "Dickens" London, McBride's, the famous humorist, in a "Wide Open Faces," and the latest Mervin's News comedies the program.

EMPRESS

"He Learned About Women," a new comedy featuring Stuart Erwin and Alison Skipworth, was yesterday at the Empress theatre, and turned out to be a marvellous performance of the two young stars.

At the end of the story young George Kendall, III, who has come to the city to inherit the Kendall fortune of fifty million dollars, is found to have been buried in a book, and has been as innocent as they come about the secret of his wealth. He has to learn to live on his own, and he's got a "milyum" of them, and a seagoing ocean liner . . . and more things happen. One of them

certainly will be the last laugh, as the young Kendall and Alison Skipworth's Miss Poldieca this veteran actress definitely set the stage for the two young stars.

Grant Mitchell is excellent

in "Annie," Susan Fleming is a

charming Jo, and Charles Morrissey and Eddie Herrell in the cast.

PRINCESS

Huge stone buddhas and fantastic statuary covered with gold leaf were the chief attractions of the thrills in store for filmgoers when the Capitol theatre to see "The Princess and the Pauper" opening Wednesday, Thursday and Friday.

This was probably one of the most interesting and most exciting matinees a film director has ever seen.

In order to make the picture look like a real drama, the director had the cast get up a smart page outside the curtain to drive in before the cameras started.

This called for delicate driving perfor-

mances, but the drivers did a

good job, and the horses brought concerted action to perfection. Driven by an expert

cot is a fine menace at Clifford.

CAPITOL

The hold up of a state coach and four horses at full speed by Baldwin and his gang was a thrill to the thrills in store for filmgoers when the Capitol theatre to see "The Princess and the Pauper" opening Wednesday, Thursday and Friday.

This was probably one of the most interesting and most exciting

matinees a film director has ever seen.

Saskatchewan Faces 'Hopper' Peril

FARM SCOURGE THREATENS IN WHEAT AREAS

Minnesota Entomologists Give Warning—Eggs in Frozen Ground

SASKATOON, Jan. 10.—Saskatchewan's southern Saskatchewan, particularly that section between Estevan and the Manitoba boundary, is experiencing a severe infestation caused by grasshoppers this year and numerous infestations are likely over a wide area, extending southward and extending northward to the vicinity of Saskatoon.

This infestation was forthcoming from K. M. King, in charge of the provincial entomological laboratory at the university here.

Few farmers, he said, had been able to withstand the infestation given last August and fall-plow their land and this would probably mitigate towards quite serious infestation.

Early Action Deemed Urgent

ST. PAUL, Minn., Jan. 10.—Entomologists of Minnesota and North Dakota today predicted another grasshopper outbreak was probable this spring unless early action is taken to prevent widespread destruction.

A. G. Ruggles of St. Paul, who directed a campaign against the crop-hungry insects last year, said enough eggs were now in the ground to hatch a de-

vastating army.

Department Will Cope With Pest

REGINA, Sask., Jan. 10.—Saskatchewan's department of agriculture has appointed F. H. Auld, deputy minister of agriculture, to direct a special staff has been taken to guard against this insect pest.

Grasshoppers have been a scourge to a series of dry years, said Mr. Auld, and, following the drought of 1931, the department has conducted campaigns to combat grasshoppers, the provincial department found itself well prepared to meet the crop-eat meat spring.

Plans were under way for a conference between the province and federal officials to consider the situation in a few weeks, he said.

Entomologists

Alive to Danger

WINNIPEG, Jan. 10.—Entomologists in Western Canada are alive to the dangers of the grasshopper menace, according to the survey.

The survey conducted in Manitoba by department of agriculture entomologists and federal authorities indicated infestation in southern areas, but not in the northern prairies, where the danger in the districts of the Red River Valley was not as serious as last year.

CONVICTS STILL HELD IN CELLS

DORCHESTER, N.B., Jan. 10.—Most of the convicts in the maximum punishment cells here were released to their cells today as a result of a ruling last Saturday by Justice Warden George C. Morris, who said the prison wards would be in operation later this week.

The prisoners were recovering from bullet wounds sustained when guards were forced to fire during the riot.

The prison staff continued repairing the damage to the buildings broken by the rioters. Temporary tarpaulin coverings are being used to protect the cold, but until final repairs are made the weather becomes milder, the cell blocks will remain far from warm.

Grain Traders Predict Higher Wheat Prices

LONDON, Jan. 10.—Forecast of greatly improved wheat prices during the early part of the year is contained in the recent report of Messrs. Sanday and Company, grain traders of London, Ontario, in their Times city notes.

The review says in part:

"With the present general commodity index having reached a point which indicates on a grand total basis India and Australia had this year price structures."

"Our opinion is that the present aggressive shape will be modified somewhat to a sharp price increase peculiar to wheat, if commodity and security markets advance as has been the case in the past few days the fundamental strength of the market will be evident and circumstances will remain in force."

Lloyd George's Nephew Dies In Alaska Town

JUNEAU, Alaska, Jan. 10.—Daniel J. Willis, 30, son of the late Hiram-Chicago gold miners and known here as a nephew of Sir H. H. Asquith, former British prime minister, died suddenly at his home yesterday. His mother was Mrs. Daniel Willis, widow of the British statesman. He was regarded as one of the ablest engineers of Alaska.

CABES TAKE THE AIR

LONDON, Jan. 10.—It wouldn't be surprising if the London Cabs, Hirsh-Chicago gold miners and known here as a nephew of Sir H. H. Asquith, former British prime minister, died suddenly at his home yesterday. His mother was Mrs. Daniel Willis, widow of the British statesman. He was regarded as one of the ablest engineers of Alaska.

Heiress Divorced

Cruelly married this marriage between Ava Alice Muriel Astor and Prince Serge Obolensky, according to the divorce granted her at Yerington, Nev. She is the daughter of the late John Jacob Astor and inherited a \$5,000,000 trust fund on her 21st birthday. The photograph below was taken on one of the couple's many trans-Asiatic crossings.

DAVISON SAYS CANUCKS SEND BONDS TO N.Y.

They Get Benefit of American Exchange is Charge

CALGARY, Jan. 10.—Charge that "Patriotic Canadians" had sent off of Calgary debentures into the United States to the benefit of adverse United States exchange dealers was denied yesterday morning when Mayor Andy Davison.

At the annual banquet of the Alberta Federation of Labor here, the Mayor reviewed in part the charge that it was whether Calgary was legally bound to pay \$300,000 in exchange charges in meeting its debenture obligations exceeding \$2,000,000.

NOT LEGALLY BOUND

The point, declared the mayor, was that the bonds had been sent to the United States for collection to derive the additional payment of exchange charges. The chief question of all was whether the bonds were payable in Canadian or United States currency. He claimed they were not legally obligated to pay its debts in United States currency.

During his remarks, he declared many of the bonds had been held by Canadian banks and had been sent to the United States for collection to derive the additional payment of exchange charges.

Mr. Davison was responding to a proposal by Alfred Farillo, president of the Canadian Bankers Association, that the bonds be paid in dollars without meeting exchange demands which were not just.

A. MacLeod Sinclair, K.C., who presented the toast to the labor movement, declared trades unions were proper and necessary.

But women who are only about six inches tall can now follow a much simpler diet routine in order to trim down their figures and still look good. This is the best I know of for only slightly overweight individuals in this diet.

In this diet, nothing should be consumed for about six days but raw vegetable bouillon. Orange juice, fruit juice, and water are substituted for the bouillon at breakfast, but lunches and dinners consist entirely of raw vegetable bouillon only. At least six or eight glassesful of the bouillon should be taken each day.

ESKIMOS PLAY HECTIC 1-1 DRAW WITH CALGARY

DAT'S
PANS by
—BILL LEWIS

While his Eskimos were battling to a 1-1 draw deadlock with the visiting Calgary team, Manager Duke Keats became the centre of a storm that should clear the clouds over the western Canada teams. Duke, who in the first round had been fined \$25 "rest of the game and fined \$25 Stand if you insist, after an argument over a forward pass ruling.

Skepticism is artificial in any line of sport cannot be condemned, but in this case, though its consequences are unfortunate for the Eskimos, Duke may well do away with an evil that exists in regard to the referee's situation.

Under the present regulations the referees are appointed by the home clubs in the four cities of the west, and the manager, president, E. L. Richardson. And you can see how easy that makes it for a referee to be biased in case to register objections, particularly if the official is the least bit biased.

I can tell you that the players and managers of every team that has visited Calgary this winter have been most anxious about the referring they have had from Referee Sande. They declare he is as bad as ever, and both the Eskimos and both the Eskimos and the Regina Caps have stated that would not play him again. He has represented two rounds of dead level with the old man of the links.

LOS ANGELES, Jan. 10.—Craig Wood, tall, blonde New Jersey golf professional, showed yesterday that he is a good golfer, too, when he won the eighth playing of the Los Angeles open golf tournament.

Wood also won the San Francisco open, and he has now 10 wins in California open, making a clean sweep of the California open tournaments for 1933.

The hard-hitting pro from Deal has three strokes under par for the 18-hole course, and has never bowed to perfect figures for the exacting Wilshire courses.

Wood, 30, of New Jersey, represented the United States in the 1932 Olympic games at Los Angeles.

He has won the 1932 U.S. Open.

He has won the 1932 U.S.

Baldy Northcott Retains Slight Lead Over Bill Cook In Scoring Race

MAROON STAR LEADS LEAGUE GOAL SCORING

Now Potent Detroit Club Has Impressive Team Record

MONTREAL, Jan. 10.—Although Detroit Red Wings held the centre at the top of the Hockey League with eight victories, the longest unbeaten streak of the year, the Wings marksmen have not elicited wide admiration.

In its scoring power is spread over a number of players. In the lists issued last night by Prell, Detroit's manager, it was shown that Herbie Loring, Harry Carson and Frank Carson were the top scorers, with 16 points each; Eddie Emons, with 15 points, tied for fifth place in the United States division, and Eddie Cuthbert, the Maroons' fellow has 13 points. Eddie Wiesman and Larry Austin, 12 each, and Carl Von Schmid, 10.

NA—
NOTES:

Only a point separates the leaders in the first six-point-making series. But the Montreal left-wing staff is still in front, by a margin of a point. Bill Cook, the best winner of New York Rangers.

In goals scored, with 10, Cook is tied with Eddie Cuthbert, while the two Maroons have 9.

Paul Stevens, Maroons, is next with 20 points, seven goals and 13 assists, followed by Eddie Emons, Canada's Bill Cook, Bill Thompson, Paul Thompson, Chicago, and Art Monk, Detroit, with 17.

Red Howes, robust, a veteran of the Maroons' staff, still leads the penalty parade with 85 minutes charged against him. Eddie Clingan, the Maroons' other player who has served 52 and is in second place.
